VOLUME 14

BALTIMORE, MD., JANUARY 3, 1931

No. 1

## FIGURES THAT SPEAK FOR THEMSELVES

United States Department of Agriculture.

**TIMOTHY—**

1929 crop—1,448,400 bu.  
1930 crop—1,479,100 bu.

Av. 1924-1930—2,150,000 bu.

**CLOVER and ALSYKE—**

1929 crop—2,523,000 bu.

1930 crop—1,459,600 bu.

Av. 1927-1928—1,344,000 bu.

It is significant that the domestic crops of 1927 and 1928 sold at over thirty cents, while the price now is only 27 cents, yet the duty is double what it was in 1927 and 1928.

## To Our Customers and Competitors:

We hope 1931 will bring a just profit on every transaction. The president of one of our great railroads was once asked if his company ever got the worst of it in any of their trades. He replied, "I don't think so, but you know we don't try to be too smart in our trading. We believe it is poor policy to drive a bargain so hard that it hurts the other man. If the bargain is a fair one, it is mutually advantageous." There is a lot of good hard sense in that. Pay a fair price for what you buy and sell at a fair profit.

The government seed loan of \$45,000,000 means an abundance of good new CASH seed business this spring for every live seed retailer in this territory.

Alfalfa—Medium crop.

White Clover—Crop very short.

Sweet Clover—Average crop but no imports.

Japan Clover—Short.

Kentucky Blue— $\frac{1}{2}$  crop. Most seed is blend of 1927 and 1930 crops.

Redtop—Short crop, but some carry over.

Orchard Grass—Short in United States, but good in Europe.

Seed Oats—Plant early Swedish Select or Victory and get the heavy yields.

We quote today's values, wholesale quantities, f. o. b. Baltimore, subject market changes and prior sale. Bags not returnable. Terms: NET CASH.
